

DCP-J925DW Technical Specifications

The DCP-J925DW offers 2-sided print, scan and copy capabilities in one stylish, compact machine.

Create a range of professional quality documents in-house including 2-sided prints, high quality borderless images and printed discs. The machine offers impressive print speeds of up to 35 mono and 27 colour ppm (12 ipm mono and 10 ipm colour laser comparable), so you are not kept waiting for your documents.

Connect and share the DCP-J925DW with multiple users across your existing wired or wireless network. The secure and user-friendly set-up enables you to connect straight from the box.

Print directly from your digital camera with the PictBridge port, or from your media card without the need to turn on your computer. View, select and edit your images via the 8.3cm touchscreen LCD display, making the DCP-J925DW even simpler to use.

Reduce your printing costs with high yield ink cartridges for a lower cost per page, and 2-sided printing to lower your paper costs. All Brother inkjet multifunctional printers incorporate a four individual inks system meaning that you only replace the ink which runs out, reducing waste and saving you money.

The DCP-J925DW complies with the strict ENERGY STAR and German Blue Angel environmental standards, ensuring low energy consumption, low noise levels and a recycle-friendly design.
