ADS-3600W
WIRED & WIRELESS NETWORK DOCUMENT SCANNER

BRINGING PAPER TO LIFE

When your scanner is connected, everyone is connected

RELIABLE NETWORK SCANNING

Offering multiple connection options including wired and wireless networking plus SuperSpeed 3.0 USB for ultra-fast data transfer. The ADS-3600W also supports programmable scan destinations from the 9.3cm colour touchscreen, for instant, one touch PC-free scanning.

WIRED & WIRELESS NETWORK

With Wired and Wireless connectivity there is no need to log on to a central PC or install software at multiple location points. Share information across teams and departments with minimum user involvement.

FAST INPUT, RELIABLE OUTPUT

Uses a wider output tray to neatly capture paper fed through the ADF. Trays are angled to encounter less paper resistance so paper can glide easily and stack smoothly, reducing paper folds.

VERSATILITY

Processes a wide range of mixed document materials, paper weights, colours, sizes and also plastic cards.

HIGH PRODUCTIVITY

Built for professional business usage with scan speeds of up to 50ppm (100ipm) and a large 50 sheet capacity document feeder. Plus, when connected via USB the ADS-3600W incorporates SuperSpeed USB 3.0 for rapid processing.

COLOUR TOUCHSCREEN

Predefined one touch scanning from the 9.3cm colour touchscreen helps to prevent the risk of inaccurate filing and lost scans, by ensuring scans can be sent directly to a desired location with one simple command.

RANGE OF SCAN-TO FUNCTIONS

To support cross function scanning, the ADS-3600W scans to Cloud services, email, email server, file, image, network, OCR software, SharePoint, USB Host, FTP and the Web.

DRIVER AND SOFTWARE COMPATIBILITY

Compatible with key drivers including TWAIN and ISIS, plus Kofax VRS* software compatibility, ensuring easy integration with industry scanning software and systems.

iPRINT & SCAN APP

Print and scan direct from your mobile device (free download required)

NEAR FIELD COMMUNICATION (NFC)

NFC enables close proximity wireless communication between your Brother scanner and a compatible NFC device for simple and timely workflow in and around the office.

BROTHER SOLUTIONS INTERFACE (BSI)

Brother Solutions Interface (BSI) is a software platform that enables third-party developers to build custom solutions that integrate with Brother devices. Customised menus and screens can be created to provide new functionality, helping you improve operations while also helping to reduce costs, wastage and risk.

* Kofax software not included

ADVANCED FEATURES

ULTRASONIC MULTI-FEED DETECTION

Multifeed Detection uses sound waves to identify potential misfeeds, reducing the risk of damaged documents and lost data.

REVERSE ROLLER SYSTEM

This system manages incoming bulk paper jobs so only one sheet is processed at a time, for outstanding reliability when scanning a variety of document types and weights.

AUTO DESKEW

Automatically aligns scanned images, reducing manual preparation and saving time.
