MOBILE PRINTERS FOR FAST, RELIABLE PRINTING ON THE MOVE...

Our RJ-4000 Series mobile printers are fast, compact and very rugged, perfect for busy mobile workers out in the field. They allow you to print up to 4" receipts, quotes, invoices and labels for customers on the spot - improving efficiency, productivity and customer service. As the fastest printer in its class, at 5" per second, it is the perfect tool for emergency services, public safety workers, field sales, delivery drivers, engineers and traffic wardens alike.

With Serial, Bluetooth, Wireless and USB connectivity options, the RJ-4000 Series uses thermal printing technology so you don't have to worry about ink or toner. And with IP54 certification, the toughest tests against dust and water, you are assured of its continued reliability whatever the conditions. BPL (ZPL emulation) also allows existing applications for label/receipt printers to work with the RJ device without extra development costs.

FIELD SERVICE
Engineers out on the road can use the RJ-4000 to print service reports for customers they are visiting, increasing customer confidence and minimising future queries.

LOGISTICS/DELIVERIES
Busy delivery drivers can print out updated delivery notes and order sheets with the RJ-4000, helping to keep them on the move and in the right place at the right time.

FIELD SALES
Use the RJ-4000 to print out quotations, contracts, financial plans and invoices, increasing the opportunity for your sales people to close the deal while a customer's interest is still high.

PUBLIC SAFETY/EMERGENCY SERVICES
The RJ-4000 printer can increase the accuracy of recording important information out in the field, avoiding unnecessary, time-consuming paperwork back in the office.

RJ-4000 Series Specification

Printing	RJ-4030	RJ-4040
Print resolution	203dpi	
Print technology	Direct thermal	
Printing speed	Maximum 5ips (inches per second) or 127mm/second (under Brother standard environment *1)	
Paper feed method	Roll feed	
Printable Width	Maximum 104mm (4.09 inches)	
Print Length	Maximum 3m (118.11 inches)	
Roll Width – Max/Min	118mm (4.64") / 51mm (2.0")	
Maximum Roll Diameter	58mm (2.28")	
General		
Dimensions (W x H x D)	6.38" x 6.93" x 3.03" (162mm x 176mm x 77mm)	
Weight	610g/1.35lb excluding battery and paper	
Battery	Rechargeable, Li-ion 14.4V	
No. of pages per battery charge	Rechargeable Li-ion Battery: approximately 2000 labels - continuously printing. (under Brother standard environment *1)	
Interface		
USB	Standard	Standard
Serial	Standard	Standard
Bluetooth (Ver. 2.0 + EDR)	Standard	N/A
WiFi (802.11 b/g/n)	N/A	Standard
Software Support		
OS Driver Support	Windows XP, Windows Vista, Windows 7	Windows XP, Windows Vista, Windows 7, Windows Server 2003, Windows Server 2008/2008 R2

SOFTWARE SUPPORT AND INTEGRATION

Brother can provide the necessary tools required for software developers to integrate the print function into their mobile application. Printer drivers are available for Windows OS and Software development kits can be provided to support Windows Mobile and Android applications.

For further information go to **http://www.brother.com/product/dev**

ON THE GO PRINTING

Thermal printing is ideal for on the go use because it is less susceptible to fluctuating seasonal temperatures and humidity extremes than other mobile technologies.

FURTHER FEATURES INCLUDE:

- BPL - ZPL emulation for easy integration with existing systems.
- Fully featured design software to upload templates to the device.
- Supports a wide range of industry standard barcode symbols – both linear and 2D.
- Industry standard 203 dpi print resolution.
