

Why take the Disney ScanNCut home with you?

The SDX2200D is our most precise, stable and feature driven edition yet.

Standalone, with no extra hardware or software required, the ScanNCut is the only home and hobby cutting machine in the world that can do this.

Because your creativity is key, the ScanNCut has a built-in scanner and is bursting with 1,435 designs, patterns and fonts. You can even create your own designs via the extra-large 5" colour touchscreen, save to your machine's memory, and use time and time again.

With automatic blade and adjustment, anyone of any skill can quickly create with materials up to 3mm thick – perfect for those at the start of their crafting journey, to those who have been creating for years.

And now with 132 Disney designs, the ScanNCut DX SDX2200D is even more magical than before. Take yours home today.

Creating the hottest interior design looks is easy with the ScanNCut's roll feeder attachment. Create decals up to almost 1.8m for home décor or shop windows*. It's also perfect for high volume, precision and repeat cutting of stickers or logos.

Matt-less loading for Roll Stickers*

With the roll feeder function, you can now load and cut rolled sticker material without the need for a mat*.

Half cut stickers

When the roll feeder is selected the ScanNCut automatically selects the half-cut setting. Just another handy feature from us to help you create with ease!

Disney magic

Bursting with new and exclusive Disney designs that are only found on the SDX2200D, it's easy to create your own magical world at home. 20 bonus designs will be available with Firmware Update Ver1.40 in October 2019*.

*Additional purchase of roll feeder necessary. CanvasWorkspace (PC or Mac version) is necessary to be installed to use the Roll Feeder Function.

Never stop creating

Whether you're a paper crafter looking to make your cards pop, a fashionista searching for that perfect look, or if interior design is more your thing, our range of accessories will take your creative projects to the next level.

From rhinestones, to foiling and embossing, stickers, stencils and so much more our optional accessory kits will take your creativity to the next level:

Rhinestone kit

Add sparkle to everything you create with our Rhinestone kit, including 1,450 hot fix rhinestones of various colours and sizes, template and transfer sheets, polishing tool and much more.

Embossing kit

Make your mark on metal and paper with our Embossing Kit. Including silver and brass sheets, templates, tools, 50 bonus embossing patterns and all the tools you need to get started.

Paper piercing kit

Intricately pierced designs are so easy to make with the Paper Piercing Kit. With our innovative piercing needle tool and 30 bonus piercing patterns, you'll no longer need to waste time hand-cutting or straining your eyes hand-piercing tiny designs.

Calligraphy kit

When words matter the Calligraphy Kit is for you. With 31 fonts, logos and patterns, watch as the specially designed holder and pens bring the flowing beauty of calligraphy to your ScanNCut.

ScanNCut goes Disney!

With 132 new and unique Disney designs, plus 1,303 built-in designs, including 140 quilt patterns and 17 lettering fonts, the ScanNCut DX SDX2200D breathes magic into everything you create. Robust, quiet and packed full of incredible features it's your go-to crafting companion.

Built-in scanner

Scan virtually anything – a drawing, magazine clipping, cherished photos and more. Create endless cut and draw designs and save to the machine's memory.

600dpi Scan to USB

Scan and save your image jpegs direct to a USB flash drive using the built-in port.

Scan-to-cut-data

Scan, edit and create your own designs. Save and use to cut, draw, emboss, foil or paper pierce*.

*Additional purchase needed for premium functions

Cut up to 3mm thickness

Cut materials like foam and felt effortlessly with the auto blade.

Blade sensor technology

Auto blade detects material thickness, taking out any guesswork. Perfect cut every time.

Direct cut

Remove the hassle of hand-cutting designs from papers and fabrics. Just scan, highlight and cut! Cutting area of 297mm.

Thin Fabric Auto Blade

Especially designed to carefully cut fabric used for quilting and appliqué.

140 Built-in Quilt and Appliqué designs

Calling all quilters! Cut perfect quilting and patchwork pieces at the touch of a button.

Seam Allowance and sewing guidelines

Add a seam allowance in quarter inch increments for easy pattern piecing.

Accommodates 305 x 305mm (12" x 12") and 305 x 610mm (12" x 24") cutting mats

Handy accessories storage compartments

Background scanning

Scan and place your design exactly on any leftover pieces of card and fabric. Saving you mis-cuts, time and money.

Stand-alone

Create and edit your own designs. The extra-large 5" touchscreen makes it easier than ever to edit, zoom and customise with no PC or mobile device required.

1,435 Built-in patterns, including 132 Disney patterns and 17 fonts

The SDX2200D has something for every project or occasion. Comes with basic shapes, intricate designs, borders, quilt and appliqué patterns, fonts and more.

Wireless connection

Wireless connection allows you to send designs directly from your free CanvasWorkspace account. No need for cables or USB flash drives.

SVG data readability

Can read SVG files directly - no need to convert first. More time crafting, less time converting.

PES/PHC/PHX file readability

Convert PES/PHC/PHX embroidery data into cutting or drawing files directly on the SDX2200D. Use as drawing, embossing and foiling data.

Pen draw

Convert cutting data into drawing designs in an instant. Use the built-in designs or your own scanned images, choose from a selection of fill patterns and watch at the ScanNCut precisely draws your design.
