

Innov-ís V3 Limited Edition

Embroidery machine

- Large 300 x 200 mm embroidery area
- Fast 1,050 stitches per minute
- LED pointer for needle drop position
- Automatic thread cutting
- USB port

The best now even better!

To celebrate our 110th anniversary, Brother has released the Innov-is V3LE, our large area embroidery machine with advanced features and superior embroidery quality. Packed with pioneering advanced features, creating elegant projects has never been easier.

Large LCD touch screen

The large, bright, clear, 7 inch LCD touch screen with 260,000 colours offers user-friendly controls to select designs, edit embroidery patterns and adjust stitches. These supportive features makes creating projects easy by previewing your designs in the full colour screen where you can also, with the touch of a button, add lettering, rotate, enlarge, reduce and combine easily and quickly.

On-screen editing

Also packed with a powerful on-screen editing system, this machine includes layout tools where you can drag and drop patterns into various positions, enlarge, reduce, rotate and create mirror images, and also customise designs to turn your own personal ideas into reality. Now also featuring multiple line text input, for added convenience when adding lettering.

Features and functions

Handy central controls

For ease of use, all operating buttons are on one convenient panel.

- Presser foot lever button – lifts the presser foot up for you.
- Trimmer button – automatically cuts the top and bottom threads.
- Needle position button – raises or lowers the needle.

USB ports

Simply connect to your PC via the USB port, or insert a USB memory stick, to quickly and simply import or export designs.

LED pointer

The LED pointer allows precise positioning, showing exactly where your needle will drop – quick and easy!

Large embroidery area

200 x 300 mm embroidery area, 2 frames included (200 x 300 mm, 200 x 200 mm).

Full spectrum LED lighting

Super bright full spectrum natural lighting system. Adjustable in the touch screen display.

Automatic needle threading

Quickly and easily thread the needle. Just press one button.

User-friendly colour touch screen

Simply touch the large, clear, wide-angle screen to:

- Edit on-screen embroidery
- Customise your settings
- Change to any one of the 13 built-in languages
- Clock
- On-screen video tutorials and built-in help guides recommend the perfect setting

Quick-set drop-in bobbin

Simply drop in a full bobbin and direct the thread through the guide and you are ready to go.

Improved needle plate

The improved shaped needle plate ensures even better embroidering quality.

17 built-in fonts and 224 embroidery designs

Embellish your projects with a great choice of embroidery patterns and fonts.

Independent bobbin winding

Wind a new bobbin while you continue to embroider.

Larger embroidery freedom than before

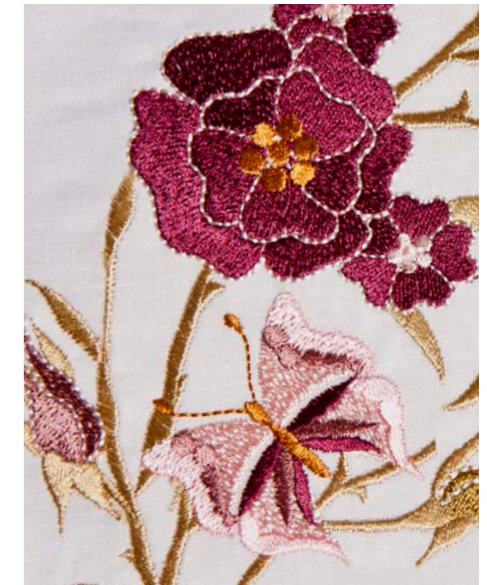

The Innov-is V3LE's large 300 x 200 mm embroidery area allows you to create large, complex designs without the need to re-hoop. Combined with a high speed of up to 1,050 stitches per minute, you have the freedom to produce beautiful embroidery, faster than ever before.

Enjoy creating a range of unique and beautiful embroidery projects around your home with designs such as the Classic Japanese, Vintage, Trendy, Zundt and special technique designs.

Over 200 exquisite embroidery designs

Designs can be edited, combined, rotated, reduced and enlarged from the touch screen. Simple drag-and-drop embroidery pattern positioning, with full colour previews, gives you full control to create sophisticated designs quickly and simply.

Easy threading

The advanced electronic automatic needle threading system threads the needle at the touch of a button.

Auto tension

The Innov-is V3LE will automatically adjust thread tension to your required setting.

Thread sensors

The helpful upper and lower thread sensors inform you when a thread is broken or is about to run out.

Automatic thread wiper

The automatic thread wiper cuts jumps stitches, saving you time and effort.

Slide-in frame mechanism

With the slide-in frame mechanism, you can quickly attach and remove embroidery frames, whilst the automatic thread trimmer instantly cuts both top and bottom threads.

LED pointer

The included LED pointer shows you exactly where your needle will drop, making placement of embroidery easier and more precise.

Built-in thread charts

The Innov-is V3LE includes thread charts from leading thread manufacturers. Without any effort, you can choose your preferred brand from the touch screen and the matching colour will be displayed.

Import patterns instantaneously

Instantly import designs via the built-in USB port. Simply insert a USB memory stick, or connect the Innov-is V3LE machine directly to your PC, to send your embroidery designs to the machine.

LED pointer

The LED pointer allows precise positioning, showing exactly where your needle will drop – quick and easy!

A wide selection of built-in fonts makes it easy for you to personalise and decorate your projects. Embellish items with the beautiful floral font or add monograms for that personal touch. There are 17 fonts to choose from, including two Cyrillic and three Japanese.

Optional extras

Border frame 300 x 100 mm

Embroider beautiful continuous designs and borders. Ideal for a wide range of projects from fashion to furnishings.

150 x 150 mm quilting frame

Ideal for quilting projects. Create squares effortlessly. Sturdy Hoop that keeps your fabric taut and handles specialty heavy fabrics. Great for beginners and experts.

10-spool thread stand

The 10-spool thread stand snaps securely onto your machine to provide 10 vertical spool pins, for thread delivery or bobbin storage, and allows easy access to frequently-used thread colours.

King pool stand

2-pin spool stand attaches securely to the Innov-is V3LE and holds two large thread cones. Ideal for quick thread changes or twin needle sewing.

Prewound bobbins

Now save even more time and increase productivity with Brother pre-wound bobbins. Just drop in the pre-wound bobbin and keep on embroidering! And on the plus side, the bobbins are reusable so you can use them again and again.

PE-Design

Brother's latest generation of embroidery design software offers advanced features to enhance productivity on the Innov-is V3LE.
