Brother's new desktop scanner range

Brother's new range of desktop scanners comprises of two small but powerful devices: the ADS-2200 and its wireless networked and touchscreen enabled flagship relation the ADS-2700W - both of which are ideally placed within document-heavy SOHO and SMB environments.

Even more robust than their acclaimed predecessors, they have been designed to make the digitisation of business-critical documents (such as invoices, contracts, receipts and plastic ID cards) a quick, easy, efficient and dependable process.
