Multiple users can now print labels anytime and anywhere, thanks to the QL-710W's built-in wireless networking capabilities.

Effortless label printing - for all applications

The QL-710W uses Brother DK label rolls. Supplied on a spool that incorporates a roll guide, this ensures that the label is always installed correctly, and recognises the size of label inserted, and you get none of the alignment problems associated with printing labels in a traditional printer. So whether you are printing just one label, or several at a time, the Brother QL-710W ensures each label prints perfectly, time after time.

Technical Specifications

- Incudes 2 rolls of labels and software

simply professional
QL LABEL PRINTERS

Give your company a professional image

Achieve a more professional finish and improve office efficiency through the use of labelling. Envelopes, packages and parcels can be professionally addressed using one of the many sizes of label available, and can even include your business logo if required. Within your organisation, ensure important information can be located quickly through the clear identification of files, folders, CD and DVD discs.

802.11b/g/n WIRELESS INTERFACE
Share the QL-710W between multiple users by connecting to your wireless LAN.

EASY TO CHANGE ROLLS
Each roll is supplied on a spool that simply slots into the correct position in the printer every time.

USB INTERFACE
Quick and easy to set up and use. The USB cable is supplied with the QL-710W as standard.

⚠ DANGER!

PRINT LABELS THE SIZE YOU NEED
Create labels from 12.7mm up to 1 metre in length, using the built-in automatic cutter.

UP TO 300 x 600 DPI PRINT RESOLUTION
Produce easy-to-read labels with crisp text and high quality graphics.

UP TO 93 LABELS/MINUTE
If you are printing one or several labels at a time, the QL-710W will have them ready in just a few seconds.

Professional built-in wireless networking

Using wireless networking with a label printer offers much more flexibility than a wired solution. Multiple users can now connect to one machine, so all can benefit by producing professionally printed customised labels whenever required, and it can be placed wherever the labels are needed rather than next to the PC. Whatever your requirements, the QL-710W is the perfect label printer for your workplace.

P-touch Editor Lite LAN
This networked label design software is easy to set up and use. Simply copy the files to a shared network drive that all users have access to, and when first run it will automatically find the networked QL-710W and place a shortcut on the user's PC. No printer driver or software needs to be installed on each user's PC.
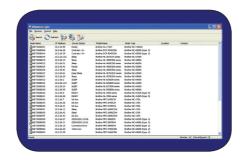

P-touch Editor 5
This professional label design software offers integration with Microsoft Word, Excel and Outlook, so you can print labels directly from these applications. Simply highlight the address, text or information you require, then click the "P-touch" icon in the toolbar to print your label immediately. Barcodes, graphics, frames and other information can be added to your labels, whatever your requirements may be.

Brother iPrint & Label
With the free Brother iPrint & Label app, you are now able to quickly and easily create and print labels directly from your iOS or Android device to your Brother QL-710W. Available through your device's app store.

BR Admin Light
Currently used by network administrators to configure Brother inkjet and laser printers, this powerful software can now also be used to set-up and install the QL-710W onto your corporate network, making one solution for all Brother networkable products.
