“The P-touch H300 is the ideal partner to help keep my office organised”

P-touch
H300

Create durable labels in many colours and widths

The portable P-touch H300 is the professional way to label items throughout your office such as files, archive folders, equipment and shelves, and the large print height makes it ideal to create signage labels. The PC style keyboard, large backlit graphic display and fast print speed ensure labelling is quick and effortless.

Print easy-to-read labels
Brother TZe tape cassettes are available in many colours, and in widths of 3.5, 6, 9, 12 and 18mm.

Built-in symbols
The P-touch H300 incorporates 617 symbols which can be used to add emphasis to your labels.

Choose your own style
Emphasise your text by choosing from any of the 14 fonts, 12 different type styles, 7 font sizes and 99 frames.

Various power options
Never run out of power by using the optional Li-ion rechargeable battery, AA alkaline batteries or AC adapter.

Large backlit graphic LCD
Design, view and edit your label before you print, reducing the amount of labels wasted.

Many print options
With a 15.8mm print height, create a large single-line label, or include up to 5 lines of text.

Preformatted label templates
Create labels easily by selecting one of the many built-in layouts.

Barcode label printing
Ideal for retail use or asset management, barcodes can be included on the labels you print.

P-touch laminated labels – designed to last

Brother P-touch laminated TZe tapes consist of six layers of materials, resulting in a thin yet extremely strong label. The thermal transfer ink is sandwiched between two protective layers of PET(polyester film), which protects the text against the effects of liquids, abrasion, temperature, chemicals and sunlight.

As the labels have been tested to the extreme, you can be confident of a professional quality label that has been designed to last.
