

MFC-J4510DW Technical Specifications

As an integral model in the Print 3.0 range, the MFC-J4510DW is our smallest ever inkjet all-in-one to offer up to A3 printing.

Print 3.0 doesn't mean one upgrade, it means everything is upgraded. Bursting with new technology the MFC-J4510DW offers a wide range of features designed with your business in mind, combined into a sleek, compact machine perfect for your office space.

The MFC-J4510DW embraces new printing technology, printing documents in a landscape format to offer you fast print speeds in a lower profile machine. Print speeds of up to 20ipm (mono) and 18ipm (colour) mean you will not be kept waiting for your documents.

Reduce your print costs: The MFC-J4510DW offers automatic 2-sided printing to save paper, and high yield ink cartridges, with yields of up to 1,200 pages for a lower cost per page, whilst maintaining high print quality for professional looking documents.

Print 3.0 means being able to print from more places and more devices. Print directly from your mobile device with the Brother iPrint&Scan app or wirelessly using Apple Airprint or Google Cloud Print™. You can also connect directly to the web from your printer in order to scan to or print from GOOGLE DOCS™, Facebook™, FLICKR®, Dropbox, PICASA™ and EVERNOTE™.

All Brother inkjet multifunctional printers incorporate a four individual inks system meaning that you only replace the ink which runs out, reducing waste and saving you money. The MFC-J4510DW complies with the strict ENERGY STAR and German Blue Angel environmental standards and ensures low energy consumption, low noise levels and a recycle-friendly design.
