The QL-800 series professional label printers offer unrivalled versatility not only in the office, but also retail, food, postal, facilities management and other industries.

Create labels with black and red* print up to one metre in length, from PC, Mac, iOS or Android devices. Several wired and wireless connectivity options are available, and even the ability to directly print labels stored in the printer's memory using the integrated LCD/control panel on the QL-820NWBc, or external devices connected to the printer.

For developers and systems integrators looking to incorporate label printing as part of their solutions, software development kits for Windows, iOS and Android offer an easy way to add support for the Brother QL-800 series label printers.

Software Development Kits available for Microsoft Windows**, iOS and Android devices to add label printing to your own solutions

●

●

●

* Requires DK-22251 continuous roll to print in black and red

** QL-800 only supports Microsoft Windows SDK

QL label printer range

Versatile labelling options

Boasting the highest print speeds and the most connectivity options in their class, the QL-800 series label printers are the ideal solution for many types of business.

Print black and red* text without ink

Draw attention to important information by including red as well as black on your labels - ideal for highlighting use-by dates, allergens and other critical information.

Create the labels you need

Labels are available in a range of sizes, from traditional die-cut (pre-sized) to continuous rolls that lets the built-in cutter trim your label to the precise length needed (up to one metre). As well as standard white, options also include bright yellow rolls and splash-proof film labels.

Wide range of connectivity options

All models allow easy connection to desktop computers using USB. Additionally the QL-810Wc incorporates Wi-Fi, while the flagship QL-820NWbc also adds Ethernet and Bluetooth connectivity.

Print from desktop and mobile devices, or stand-alone

All models are PC/Mac compatible, whereby the QL-810Wc and QL-820NWbc connect to smartphones and tablets using the built-in wireless connections. Additionally you can select and then print labels stored in the memory of the QL-820NWbc using the large LCD display and integrated control panel.

* Requires DK-22251 continuous roll to print in black and red

Software solutions

Boasting the highest print speeds and the most connectivity options in their class, the QL-800 series label printers are the ideal solution for many types of business.

P-touch Editor Lite* / P-touch Editor Lite LAN*

Built inside the QL-800 and QL-810Wc, this easy to use label design software works without the need to install software or drivers. Working like a USB flash drive, simply connect to your PC/Mac using USB, and launch the software from the drive that appears. Include images, frames and any of your fonts on your label design and print!

A version for network connected models is also available - simply run the software to allow many PC's in an office to print labels to the one printer. Again, no installation needed.

Brother iPrint & Label app for iOS and Android smartphones/tablets

Print labels on the QL-810Wc and QL-820NWBc using the free iPrint&Label app. Connect via Wi-Fi or Bluetooth (on QL-820NWBc), and choose one of the pre-defined templates or quickly design your label from scratch. The selection of readily available templates are perfect for visitor management, document filing and office signage.

This free app is available from your mobile device's app store by searching "Brother iPrint&Label".

P-touch Editor with Microsoft Office add-in

Design professional labels including images and logos, barcodes and frames. Link to data contained in Excel or .csv files, to print many labels quickly and efficiently, making it perfect for large volumes of address labels. The Microsoft Office add-in lets you highlight, click and print right from within Word, Excel or Outlook.

Software development kits for Windows, iOS and Android

System integrators and software developers can now take advantage of various Brother SDK's that allow easy integration of label printing directly within their own apps and software. For more information please visit <http://www.brother.eu/developer>

* Black print capability only. Use P-touch Editor for black and red printing

Advanced functionality

The QL-820NWBc with its stand-alone print function and remote FTP template update allows label printing directly from the control panel. Plus advanced connectivity options offer the widest compatibility with all types of devices.

Stand-alone label printing

The QL-820NWBc has a large memory to store label templates designed in P-touch Editor. Label templates can be uploaded to the printer's memory, and accessed using the integrated control panel and backlit graphic LCD display. Ideal for printing current or future date/time on labels in the food and retail industries.

AirPrint* and Bluetooth with MFi (Made for iPod/iPhone/iPad) compatibility

The QL-810Wc and QL-820NWBc both support Apple AirPrint* to enable printing from compatible apps on iOS devices and Mac. Additionally, the QL-820NWBc offers Bluetooth connectivity to easily connect iOS and Android devices to the printer.

Remote template update via FTP

Where the QL-820NWBc is deployed at multiple locations, updating the templates in all printers would normally be a time intensive operation. However the printer can automatically connect using FTP to a remote server, and if new templates are found, update these automatically. This helps companies save time and money, and ensures consistent operation at all remote sites. All this directly from the printer via the internet, without needing a PC connection.

* iOS and macOS only supports black print when using the default AirPrint function, however red print capability is available from iOS devices when using AirPrint with apps developed using the Brother Software Development Kit.

Office

There are so many uses for labels around the office. In addition to address labels for envelopes and parcels, identify the contents of files and storage boxes. Label shelves so items are returned to the correct place.

The black/red* printing capability enables essential information to be highly visible, such as valid-on dates on visitor badges. The continuous film rolls are also ideal for indoor signage, helping facilities managers create bespoke signs on demand.

* Requires DK-22251 roll

Visitor badges

Postage labels

Document filing

Indoor signage

Logistics and warehouse

In busy warehouses and post rooms, accurate and timely labelling of parcels, envelopes and product cartons is essential to ensure the smooth running of all logistics operations. Using red* print on handling labels ensures this crucial information is noticed, while barcodes can be quickly generated as-and-when required.

* Requires DK-22251 roll

Handling labels

Temporary signage

Shipping labels

Product packaging

Retail

Pricing/Barcode labels

Promotion signage

Conveying product pricing and any special offers to shoppers quickly is crucial for the retail sector. Print pricing labels for product tags, that can also include barcodes. And use red* print on to highlight special offers or promotions by creating eye-catching indoor signage.

* Requires DK-22251 roll

Food

Takeaway orders

Shelf-edge labelling

On-demand label printing is a critical part of the food industry, such as highlighting allergen information to consumers, show use-by/best before dates, and product pricing including EAN-8 / EAN-13 barcodes.

The QL-820NWbc with its stand-alone label printing function is ideal for counter-top use, and printing labels on-demand. Takeaway outlets can print details of orders, including address information where delivery is required.

DK rolls for the QL-800 label printer range

Wide range of labels available in paper and plastic film material, pre-sized labels or continuous rolls

DK Die-Cut Labels	Material	Colour	Size	Item No.
Standard address label (400/roll)	Paper	White	29 x 90 mm	DK-11201
Large address label (400/roll)	Paper	White	38 x 90 mm	DK-11208
Small address label (800 roll)	Paper	White	29 x 62 mm	DK-11209
Shipping label (300/roll)	Paper	White	62 x 100 mm	DK-11202
File folder label (300/roll)	Paper	White	17 x 87 mm	DK-11203
Multi-purpose label (400/roll)	Paper	White	17 x 54 mm	DK-11204
Square label (1000/roll)	Paper	White	23 x 23 mm	DK-11221
CD/DVD label (100/roll)	Film	White	58 mm	DK-11207
Round label (1200/roll)	Paper	White	12 mm	DK-11219
Round label (1000/roll)	Paper	White	24 mm	DK-11218
Visitor badge label (260/roll)	Paper	White	60 x 86 mm	DK-11234

Continuous-length	Film	Clear	62 mm	DK-22113
Continuous-length - Black/Red print	Paper	White	62 mm	DK-22251

Accessories

Optional rechargeable battery unit (PA-BU-001)

This li-ion rechargeable battery unit mounts to the base of the QL-810Wc and QL-820NWbc to offer label printing away from power sources. This makes it ideal for use on trolleys or carts, or for exhibition badge printing. Features a fast-charge of under 2 hours 30 minutes, and the capability to print up to 4,300 labels (mono) or 1,400 labels (colour) per charge*.

* Continuous printing using USB when fully charged
