P-touch H500

Professional Handheld PC Labelling Machine

Create labels using the built-in keyboard and display, or directly on your PC.

- Print labels for all around the office
- Large easy-to-read display with backlight
- Automatic label cutter
- Prints 3.5, 6, 9, 12, 18 & 24mm labels

Design then print durable labels on your Mac or Windows PC

Thanks to its handheld design, the P-touch H500 helps you organise your office quickly and easily by creating labels to identify the contents of file folders, archived documents, data backup discs/USB sticks and shelves. Or when connected to your PC, add images, frames and barcodes on your labels and create stylish text using all installed True Type fonts.

P-touch labels are available in many different sizes and colours to ensure that whatever label you need, the P-touch H500 can effortlessly produce them whenever or wherever they are required.

P-touch laminated labels – designed to last

Brother P-touch laminated TZe tapes consist of six layers of materials, resulting in a thin yet extremely strong label. The thermal transfer ink is sandwiched between two protective layers of PET(polyester film), which protects the text against the effects of liquids, abrasion, temperature, chemicals and sunlight. As the labels have been tested to the extreme, you can be confident of a professional quality label that has been designed to last.
