#### High quality print

High quality supplies are essential for achieving outstanding print results. These premium pigment inks are formulated to produce vibrant colours and sharp text. Whether you are printing images, presentations, or documents, they enhance overall print quality.

#### Efficient

Simplify your day with clutter free paper management. The easily accessible 150 sheet front loading paper tray, protects your paper when printing and makes replacing your paper quick and easy. Save time with print speeds of up to 20 images per minute, automatic 2-sided printing, a dedicated 20 sheet automatic document feeder and a 100 sheet paper output. Easily scan documents and send them directly to your desktop or mobile device.

#### Simple to use

Enjoy a hassle-free set up experience with the 4.5cm (1.8") colour display and use your device with ease through the Brother Mobile Connect app or a range of flexible connectivity options including 5GHz Wi-Fi, and USB.

## Connect for more control

Set up and print on the go with the Brother Mobile Connect app. Control all your Brother printers from your fingertips. Easily check ink levels, order and save on genuine Brother supplies, access your scanned documents history and personalise your frequently used features.

## Secure by design

To keep pace with the ever-evolving legislation on privacy and data security, our devices offer the latest industry-standard security features to securely protect your data.

The MFC-J4350DW is 'secure by design', using triple-layer security at a device, network and document level, offering added peace of mind, guaranteeing that the integrity of your data is maintained at every step

## EPS-free, recyclable packaging

Our award-winning moulded pulp packaging replaces Expanded Polystyrene (EPS) within our printer packaging. Developed with advanced simulation technology, ensures durability and flexibility for safe product delivery. It uses fewer resources, making it environmentally friendly and easy to recycle. ### IP filter

Restrict which network users can or cannot access the device over the network (IPv4)

### SecureBoot

The integrity of the firmware is checked before allowing any user interaction. Only genuine Brother firmware can be used

### Automatic intrusion detection

All Brother Print devices are secure by design. Devices automatically recognise security attacks and take preventative measures, including rebooting where necessary, to ensure the device remains secure

### Firmware updates

In addition to allowing automatic updates the printer can be set to not receive older firmware versions to avoid downgrade by an unauthorised user

### Firmware encryption

During update firmware is transferred over a trusted HTTPS encrypted connection

### Digitally-signed firmware

The firmware for Brother print and scan devices is digitally signed and secure

### Cloud secure print

Enables password protected driverless print job release

### Certificate management

Use the default standard self-signed, create a custom self-signed certificate, certificate signing request (CSR), or external public certificate & private key for protected network communication

### Syslog

Allows IT Admin to access a single application (SIEM tool) to get device status updates for audit purposes over Syslog

### Port-based network Access control

(IEEE 802.1x)  
Brother devices are in full compliance with this standard, to allow connection to an 802.1x EAP (Extensible Authentication Protocol) protected network

### Restrict network protocol

The Protocol Control feature allows an administrator to restrict communication protocols (e.g. FTP, Telnet) as required
