

Brother's New Range of ADS Network Scanners

Hardware That Lasts. Software That Excels.

For PC, Mac, Linux and anybody with a stack of documents.

ADS-3600W Wireless High Speed Network Scanner

The flagship model of the new ADS scanner range, Brother's ADS-3600W merges premium duplex scanning hardware and a feature-rich software package at a highly competitive price.

Engineered for high performance and low maintenance

As innovative as it is robust, Brother's ADS-3600W boasts precision made hardware designed to withstand a 5,000 sheet daily duty capacity[2].

The ADS-3600W protects your original documents and ensures the highest levels of productivity thanks to its jam sensor, multi-feed detection and advanced reverse roller system technology.

Intuitive touchscreen unlocks a wealth of features

Create your own profiles of up to 48 shortcuts and scan directly to PC, web, network, email server, USB, apps (including Microsoft Office - Word, Excel & Powerpoint) and the cloud via the 9.3cm LCD colour touchscreen.

Perfect for business cards and extra long paper

Our scanners are built to handle double sided, mixed batches of everything from plastic business cards and pen marked expenses receipts to multi-page contracts and extra long[10] 5,000mm paper at weights from 27 to 413 gsm[1].

Wired and wireless network for increased flexibility

All Brother ADS models allow you to scan to your network and beyond with truly PC-free scanning. The ADS-3600W offers even greater connectivity thanks to its wireless network support.

Advanced image processing and premium software included

Transform everyday documents into powerful digital assets with a suite of complete programs including ABBYY FineReader Professional for PC and Mac, ABBYY PDF Transformer+ and Nuance PaperPort 14 SE for PC plus Brother's own user-friendly Control Center workstation for PC and Mac.

Industry-standard ISIS and TWAIN drivers ensure effortless integration into document management systems while a range of advanced image processing functions intuitively prepare and clean scanned files, improving the quality of the scanned image for all your digitization needs.

Access, edit and share from anywhere

Scan directly to a variety of cloud services or go mobile and scan to your staff's smart phone and tablet devices with Brother's own iPrint&Scan app. This allows for multiple user collaboration, streamlined storage management and peace of mind in the event of disaster recovery.

Certified for use from Kofax

Brother's entire ADS 2.0 scanner range (ADS-2400N, ADS-2800W, ADS-3000N and ADS-3600W) have been officially certified by for use with Kofax VRS® (VirtualReScan) Elite software to verify their capability of delivering a premium standard of document capture.

Buyers Lab: Award for Outstanding A4 Network Scanner

Following an exhaustive 25,000 scan durability test, Buyers Lab presented the ADS-3600W with their Certificate of Reliability, a Highly Recommended citation and a special 2016 Summer Pick honour for Outstanding A4 Network Scanner. Buyers Lab stated: "The 50-ppm Brother ADS-3600W's robust media handling capabilities, better than average speeds and superb software bundle would be enough to praise its performance. However, its network scan functionality adds a degree of versatility not typically seen on such an affordably positioned device."

Bespoke workflow via Brother Solutions Interface (BSI)

Featured on both the ADS-3600W and ADS-2800W, BSI is a platform that helps third-party developers and system integrators easily merge customised solutions with compatible Brother devices.

NFC makes scanning and security easy

Near Field Communications can be used to protect confidential info by requiring users to tap their ID card on the device to unlock it.

ADS-3000N High Speed Network Scanner

A dependable office essential for higher volume scan needs, Brother's ADS-3000N easily handles 50 pages per minute and up to 5,000 sheets a day[2]. Ideal for hard copy based businesses or disaster recovery planning, the ADS-3000N is built for an efficient and user-friendly drive towards digital archiving.

- Rapid double sided colour scans (up to 50 pages per minute / 100 images per minute)
- GigE wired network and SuperSpeed USB 3.0 connectivity
- 50 sheet mixed batch document capacity
- TWAIN and ISIS drivers for optimum performance
- Contains advanced image processing features
- Premium software essentials included for PC and Mac[3]
- Certified for use from document capture experts Kofax
- Certificate of Reliability and Recommended lab test report from Buyers Lab

ADS-2800W Wireless Network Scanner

The upgraded ADS-2800W adds a staff-friendly colour LCD touchscreen and wireless connectivity to its stockpile of office-ready features. This is ideal for quickly scanning to cloud services and emails, freeing up the user to focus on other core business tasks.

- Fast double sided colour scans (up to 30 pages per minute / 60 images per minute)
- GigE wired network, Hi-Speed USB 2.0 and Wi-Fi connectivity
- 50 sheet mixed batch document capacity
- Lockable 9.3cm colour LCD touchscreen
- TWAIN and ISIS drivers for optimum performance
- Contains advanced image processing features
- Premium software essentials included for PC and Mac[3]
- Certified for use from document capture experts Kofax
- Certificate of Reliability and Highly Recommended lab test report from Buyers Lab

ADS-2400N Network Scanner

This powerful, affordable and space-saving network scanner boasts great scan speeds, user-friendly software, easily programmable keys and compatibility across a range of document types, drivers and operating systems. The ADS-2400N is capable of scanning up to 3,000 sheets per day[2].

- Fast double sided colour scans (up to 30 pages per minute / 60 images per minute)
- GigE wired network and Hi-Speed USB 2.0 connectivity
- 50 sheet mixed batch document capacity
- TWAIN and ISIS drivers for optimum performance
- Contains advanced image processing features
- Premium software essentials included for PC and Mac[3]
- Certified for use from document capture experts Kofax
- Certificate of Reliability and Highly Recommended lab test report from Buyers Lab

Robust hardware built for the long run

Diverse paper handling and fast output

The new Brother scanners can handle a range of double sided media as well as embossed plastic card up to 1.4mm thickness and 27-413 gsm paper weights via the detachable A4-ready ADF (Automatic Document Feeder). The easy to use range offers rapid, richly detailed scans at up to 50 pages a minute (or 100 images per minute double sided) at 300dpi - ideal for quickly handling important batch jobs.

Advanced reverse roller system

This advanced system manages incoming bulk paper jobs so only one sheet is processed at a time, for outstanding reliability when scanning a variety of document types and weights.

Multi-feed detection

This system uses sound waves to identify potential misfeeds. The paper pathway is automatically suspended and the user alerted if an irregular signal is detected, reducing the risk of damaged documents and lost data. Plus, an inbuilt jam sensor on the ADS-3000N and ADS-3600W models expertly controls the flow of documents safely at high speeds.

Paper detection processing features

These key features automatically detect the correct dimensions of the inputted pages and amends the outputted files so the user doesn't have to edit manually or rescan.

Range features include: Auto Deskew, Auto Image Rotation, Detect End of Page.

Page control processing features

Brother scanners are designed to recognise and optimise a variety of mixed document types to output them as efficiently as possible. For example, blank page scans can be automatically detected and removed, reducing file size when sharing and saving paper when printing.

Range features include: Plastic Card Mode, Margin Setting, Edge Filling, Skip Blank Page, 1 Sheet Scan, Continuous Scan, Multi-Feed Detection, Margin Setting, Carrier Sheet Mode.

Image quality processing features

Advanced image processing features clean scanned documents, ensuring important information is captured accurately. This results in less ink wastage when documents are printed, reduces file sizes for sharing and generates a clearly legible article when reading. This means less time spent manually correcting and preparing documents, and more time spent focusing on the core of your business.

Range features include: B&W Threshold Adjust, Greyscale Adjust, Colour Tone Adjust, Auto Colour Detect Adjust, Background Processing, Colour Drop-Out, Boldface Formatting, Blurred Character Correction, Edge Emphasis, Noise Reduction, Punch Hole Removal.

Powerful Imaging Drivers & Software Included

Brother Control Center and BRAdmin Professional 3

Easy to use scan software from Brother offering the essentials in one place: support, device settings management, image processing features and various “scan to” options.

Nuance PaperPort 14 SE

Used by millions worldwide, PaperPort lets the user scan documents as well as storing, viewing, editing and converting the digital files via one simple, powerful program.

TWAIN 2.2, ISIS, WIA, ICA and SANE drivers

These essential drivers ensure effortless integration into document management systems and imaging solutions across Windows, Mac and Linux operating systems.

ABBYY®

ABBYY FineReader

ABBYY FineReader Professional (available with the ADS-3000N and ADS-3600W models) is one of the world's most renowned pieces of OCR (Optical Character recognition) software. Designed to end the retyping and reformatting of documents, it supports up to 190 languages for text recognition.

ABBYY FineReader Sprint (available with the ADS-2400N and ADS-2800W models) quickly converts scanned documents into editable formats including Microsoft Word and Excel while retaining fonts, tables and layouts.

ABBYY PDF Transformer+

ABBYY PDF Transformer+ allows you to quickly create, read, convert, comment, edit, password protect and share PDF documents.

ADS 2.0 Scanner Range Specification Overview

Visit: <http://support.brother.com/>
for downloads and to register your product.

- [1] For best performance it is recommended to use a carrier sheet for the following weights: 27-39 gsm
- [2] Maximum number of scanned pages per day can be used to compare designed durability between like Brother products. For maximum scanner life, it is best to choose a scanner with a duty cycle that far exceeds your scan requirements
- [3] Optional free download from the Brother Solutions Centre <http://solutions.brother.com>
- [4] All available with supplied software
- [5] Some options may require additional download or subscription
- [6] Capacity varies dependent on paper weight
- [7] Document sizes larger than A4, but not exceeding A3, can be scanned (single-side) using carrier sheet
- [8] Must be web connected
- [9] Windows® only
- [10] Can scan documents longer than A4 size. When using Brother (TWAIN/ISIS) to scan at 200 dpi, the maximum scanning length is 5,000 mm
